KEYNOTE SPEAKERS

Mike Crowley

Mike Crowley holds a BS in Fire Protection and Safety Engineering from Illinois Institute of Technology, and an MBA from The University of Houston. Mike is a licensed professional engineer in 5 states. Professional organization involvement includes Fellow in Society of Fire Protection Engineers (SFPE), National Fire Protection Association (NFPA) Membership and activity on NFPA Technical Committees including NFPA 101 - Healthcare Occupancies and Means of Egress, and NFPA 99 - current Correlating Committee Chair, among others. He is a Life Safety Code and NFPA 99 instructor for NFPA.

In addition, he is a Senior Member of the American Society of Healthcare Engineers. Mike has authored numerous technical articles and made presentations at various conferences and symposiums. He is Vice President Development and healthcare practice leader. Mike provides consulting to architects, facility managers and building owners around the world.

Enrique J. Unanue - AIA, NCARB, ACHA

Enrique has been a practicing health care architect for the last 36 years. In the 1970's he worked on health care projects with the firms of Harry Weese and Associates and Perkins and Will.

Since 1977 Enrique has worked in the health care regulatory arena at the Illinois Department of Public Health as a review architect, supervisor, Division Chief, and Deputy Director for the Office of Health Care Regulation.

Enrique is principal of Code Services, LLC a firm he founded in January of 2007. Since its founding, Enrique has provided code consulting services to most major healthcare projects in the Illinois and Midwest market area; among the projects he has been involved in are the replacement projects for the University of Chicago Hospitals, Rush Medical Center, Sherman Hospital, Silver Cross Hospital, Joliet; Children's Memorial Hospital, Chicago; Carlinville Area Hospital, Saint Mary's Good Samaritan Hospital, Edward Hospital, Memorial Medical Center, St. John's Hospital, Sacred Heart Hospital, St. Mary's Hospital, Multimedica-Guatemala, Rockford Memorial, and Ritacca Surgery Center.

Kelly Mason - National Healthcare Manager - STI Firestop

Kelly is the National Healthcare Manager for Specified Technologies Inc. (STI). Kelly has implemented programs for managing barriers in hospitals for over 15 years throughout the United States. Notable projects include the Cleveland Clinic, The Mayo Clinic, Borgess Medical Center and University Hospital in Cleveland. Mr. Mason has become well known for his understanding of the life safety requirements in hospitals and how changes in the Joint Commission effect the planning of facility projects. Kelly has specialized

in implementing firestop programs and product solutions to meet the unique needs of healthcare facilities, including compliance with the Joint Commission, code compliance, infection control, and patient privacy.

Douglas S. Erickson - FASHE, CHF, HFDP, CHC

Doug provides expertise in healthcare facilities planning, design, and construction with more than 40 years of industry experience, including experience as a healthcare facility manager, consultant, an authority having jurisdiction, and the principal advocate representing the American Hospital Association (AHA)/American Society for Healthcare Engineering (ASHE) membership on national codes, standards, and built environment committees. He is a member of ASHE, the National Fire Protection Association (NFPA), and the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE).

Doug has represented AHA/ASHE membership on over 15 NFPA Technical Committees in the course of the past 26 years and is the immediate past chair of NFPA 99 (Health Care Facilities Code) and NFPA 110 (Emergency Power Supply Systems.) Doug is also the chair of the Clinical Subcommittee of ASHRAE Standard 170 (Ventilation in Healthcare Facilities). He is a past chair of the NFPA's Health Care Section and served on the NFPA's Standards Council. He also served on the Joint Commission's Committee on Healthcare Safety for over 10 years.

Doug currently serves as the CEO of Facility Guidelines Institute (FGI), a not-for-profit organization responsible for producing the Guidelines for Design and Construction of Health Care Facilities and whose mission is to produce consensus-based guidelines in healthcare. He is a founding board member of FGI and has had a leadership position with the Guidelines since 1985 and a committee member since 1978. Doug currently chairs the 2018 edition and was the chair of the 2014 and 2010 editions and vice-chair of the 1987, 1992/92, 1996/97, 2001 and 2006 editions.

Doug is also a senior advisor to Specified Technologies, Inc., the premier firestop authority, providing consultation and strategic leadership on the health care built environment.

Doug earned his Bachelor of Science in aerospace engineering at the University of Illinois/Champaign-Urbana and is the past Deputy Executive Director of ASHE, Director of Planning, Design and Construction for the AHA, and the Director of Engineering for the Joint Commission in Chicago, IL. He is a featured speaker at national and local conferences on health care facility codes, standards, guidelines, and environmental infection control. Doug was also selected for ASHE's highest membership award in 2013 - The Crystal Eagle.
